CLEAN AIR SYSTEM

REOPEN YOUR SPACES SAFELY AND COMFORTABLY

The industry's most effective air disinfection solution, Clean Air System offers your people peace of mind by dramatically lowering their risk of infection throughout your space. With Big Ass Fans' expert fan designs and proprietary technology, Clean Air System has been verified through independent laboratory testing to kill 99.99% of SARS-CoV-2 (causes COVID-19) and other airborne pathogens while safely neutralizing allergens, odors, and fumes.

Our experts will develop a custom solution to make your air clean and comfortable using the products best suited for your unique space, then provide premium services to keep your system in prime condition year after year.

KEY BENEFITS

- Protect your people by killing airborne viruses and bacteria
- Safely neutralize allergens, odors, and fumes
- Improve air quality and work conditions over wide coverage areas
- Enjoy a range of convenient controls and available automation
- Rely on Big Ass Fans to design and maintain a custom solution
- Get up and running quickly with factory-certified install and commissioning

POWERFUL AIRFLOW

Our world-class products offer unparalleled airflow—the key to rapidly disinfecting the air your people breathe and delivering it right where they need it.

PROVEN TECHNOLOGY

Seamless integration of Ion and UV-C technology—both scientifically proven to kill airborne pathogens—makes these disinfection methods more practical and effective than ever before.

UNMATCHED EXPERTISE

Choose the winning team. With our custom solutions, factory-certified installation, and expert in-field servicing, you'll keep your people protected for the long haul.

SALES BOOKLET

POWERFUL AIRFLOW

Big Ass Fans has mastered the science of airflow with purpose-built products that deliver unparalleled performance. Now our world-class overhead and directional fans work with Clean Air System to create safer, healthier conditions throughout your space.

POWERFOIL X3.0 AND POWERFOIL D WITH ION TECHNOLOGY

Big Ass Fans' signature industrial ceiling fans offer unrivaled airflow and efficiency, transforming the way you do business with comfort and savings. Equipped with integrated ion technology, our flagship Powerfoil models deliver healthier air and cleaner surfaces to your people no matter how large the space.

- Diameter options from 8 to 24 feet (2.4 to 7.3 meters)
- Industry-leading safety features and durability

AIREYE WITH ION TECHNOLOGY

Our most versatile and advanced directional fan, AirEye with Ion Technology delivers precise directional airflow to attack viruses, bacteria, and other contaminants directly where your people breathe and on the surfaces that they touch.

- Diameter options of 20, 24, and 30 inches (51, 61, and 76 cm)
- Wide range of available controls and mounting options

HAIKU WITH UV-C

The epitome of sophistication, Haiku now offers a seamlessly integrated UV-C fixture to deliver healthier, more comfortable conditions with style and innovation.

- Diameter options of 52, 60, and 84 inches (132, 152, and 213 cm)
- Variety of finish options, automated controls, and smart home integrations
