## Book Design

*Kingdom Come*, by Lori Wagner is a 280-page book in the genre of inspirational Christian literature. The intended audience within that niche genre is broad: Christians from any denomination, who desire to develop a greater connection with God to better serve their world. The age of the target audience is from college age to mature adult (approximately 18-65). With that in mind, the design of this book is modern and bold, to look attractive to readers from different generations.

The interior of the book is designed with a sleek sans-serif typeface, both for ease of reading as well as keeping the look clean and modern. Included throughout are a selection of quotes and pop-outs to bring emphasis and break up the text, adding to the casual/inspirational feel.
